"PLANING PIACHINES.

throughout the United States:

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Raife Phaling Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now officer by several pretending inventors, described in the 16th volume of the Repettory of Arts, invented by Samuel Benthan, in the year 1791. A like machine was patented in this country by one Rugler, some six teen years since, and another one plu up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fire eight years experimenting upon these machines, not one in use is of any wave for the purpose contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to say offered by the pretonding inventors, at the cost of the machine and five per cent for my trouble.

May 19, 1819.

I denythat any person ever saw or heard of such a machine as mine until Univented the same. Sauf machine was operated in the month of August, 1818, and no machine before this could do so much work, and do it as well as mine in reply to the above antertagement, and in order that for this could do so much work, and do it as well as mine in reply to the above antertagement, and in order that the public may be assured that I mean what say, I am equal amount from add Wilson, that Onch of a practices will plane, or plane, tonget and grown machines. the purpose of nominating candidates to be supported at
cur annual Town Meeting, on Tuesday, the 6th of April.

By order of Town Committee.

Lake, March 30, 1842. Lake, March 30, 1852.

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL. Madison, March 27. The Senate passed this morning unanimously a resolution fixing the 12th of April as the day of of adjournment. The House has yet to act upon

Mr. Botkin introduced a bill authorizing the supervisors of Dane County to take stock in railroads for the county, with a provision submitting it to the people. It is mentioned that a very recent decision of the Ohio courts has been made in favor of the constitutionality of such bills-Mr. Graham introduced a bill authorizing a bridge across Milwaukee river at the foot of Milwankee street, and it was referred, on motion of Mr. Phelps, to the delegation from city and county. Of course nobody in Milwaukte feels any interest in the matter, pro or con-they never did!

Certain joint resolutions, giving the assent o

the state to the formation of the proposed Superior Territory coming up, they were laid on the table, on motion of Mr. Hoyt, who stated that the boundaries as proposed by the Assembly would probably be changed in the Senate, so as to take the Chippewa river instead of the Trampe L'eau as part of the southern boundary.

The Committee on town and county organization reported a bill providing for a vote in Columbia county as to whether Wyocena shall be the county seat or not.

Mr. Utley, from the select committee to which was referred certain papers relative to transactions of the late Governor, reported them back this morning without action, stating that the committee had no means of properly investigating the matters therein referred to. The documents were referred to another select commit-

The bill which provides for paying the U. S land officers for locating school lands again made its appearance this morning, in the order of business. A desire was shown by many members to delay action a day or two longer, until Mr. Barber can have an opportunity of presenting certain statistics which he is toderstood to have in course of proparation. The friends of the bill succeeded, however, in urging it forward to a voe, and the engrossment was refused, 25 to 33.

The House reached bill No. 253, introduced b Mr. Barlow, which-being entitled "a bill for the suppression of drinking houses and tippling shops -was nothing more or less than the Maine law, with two sections at the end submitting it to the people. Mr. Richardson moved to strike out all after the enacting clause, and insert two sections precisely similar to those proposed in the bill reported by the Senate Committee, simply submitting the question to a vote of the people—thus making the bills identical. After a very brief discussion, the House came to a vote on the proposition, and the sections were inserted by the following vote:

Aucs-Abbott, Bancroft, Barlow, Blodgett, Briggs, Burgess, Clemons, Conger, Cooper, Cramond, Donaldson, Earnest, Fellows, Gordon, Green, Lewis, McNaughton, Mead, Penk, Ramsey, Richardson, Root, Safford, Sheles, Skinner, Sterling, Nos., Adoi, Sandai, Sandai, Sandai, Standa, Standa, Standa, Standa, Studen, Toay, Wood, Worthington—30.

The ouestion was then taken on the engressment of the bill and carried by the same vote adding Mr. Van Nostrand in the affirmative. The House afterwards took up a bill equivalent to the law in force prior to the present license law, and occupied the remainder of the morning

The Senate did a famous morning's work have ing passed twenty Assembly bills and two memorials, and three bills and one memorial originating in its own body. Among their bills was one giving the power to juries to say whether the penalty for murder shall be death, or imprisonment

Io Triumphe! the long labor is over! the General Banking Law has been ordered engrossed. The very full telegraphic despatch that I send tonight has already given you the detail of action upon it, though very briefly. The bill was taken up where it was left yester-

day, an amondment of Mr. Lewis' pending, which proposed to specify the stocks receivable as securities. After voting on certain states by name, the House finally refused to make any alteration in the section as originally proposed, except to insert a proviso, moved by Mr. Worthington, to the effeet that the Comptroller shall exercise his discretion as to accepting the stocks offered, even though they seem to be all right as to the current

Mr. McKee now moved an individual liability section, quite barmless, and certainly ineffectual in its provisions. This was carried. Then "Monsieur Tonson" came again! Mr.

Giles offered the milroad sections rejected on Tuesday, with an alteration to take them out of the rule which would otherwise exclude them from the consideration of the House. The alteration provided that where the roads are 20 miles in their whole length, their bonds may be taken as secutity. Otherwise there must be 40 miles completed. PALMER, WEER & Co., of Laporte. A HASTY CONCLUSION.-The Commercial of yesterday records the election of a Democratic Mayor in Erie Pa. by 31 majority and "points the moral"

Erie is one of the strongest whig cities in the Union. But Gen. Scott had just been nominated for President by the Whig State Convention, and behold the result! in Erie took place on the 20th instant, and Gen.

The Free Democrat vs. the Mayor and Council The Free Democrat, in its elaborate attack up-

on the Mayor and Common Council, for their ction on Saturday last in reference to the City Printing, sought to make three points, which we propose, as briefly as may be, to notice. These are: that the Mayor was in fault in entertaining Alderman Fischback's motion to reconsider; that the City Printer is a City Officer, to be elected and removed only as other officers are; or, that point failing, that the Free Democral has got the contract" for all the English City Printing, and that the Board cannot take it away from them. A simple recital of the facts will dispose of the first point. At the meeting of the Board, March 20th, the Select Committee on Proposals for Printing, submitted two reports. One was from the majority, reciting the different proposals and recommending that those of the Sentinel and See

Bote, as most favorable to the City, be accepted, and that all other printing for the City, not inclu-ded in these proposals, Le also awarded to the lowest bidder "according to the provisions of the Charter." It was signed by Alderman Brown, of the Third Ward, Ald. Pron, of the First, and Ald. Dousman, of the Fifth. The Minority report, signed by Ald. West, of the 4th, and Ald. EUSTADI, of the Second Ward, took ground that the Charter did not require the Printing to be let to the lowest bidder, and therefore recommended no action upon the proposals." This latter report was adopted by the Board, as we believe under an entire misapprehension of its purport and the provisions of the Charter. Ald, Footh immediately moved to proceed by ballot to designate two papers, de., which was adopted, and the Fre-

nocrat and Banner so "designated." Ald. Foorn then offered the following resolution rhich was also adopted:

Resolved, That the publishers of the English paper, so designated, be required to do all the pinting and publishing required, or which may be required to be done by the Common Councilor any of the city Officers, except such as is required to be printed or published in the German language. guage. Lastly, to clinch the matter. Ald, Wast offered

the following, which was also adopted:

the following, which was also adopted:

Resolved, That S. M. Booth, and Schoefflet & Weadt, be, and they are hereby appointed City Printers for the ensuing year, and that they file bonds in the penal sum of for the faithful performance of their duties.

Also, that the Committee upon Ordinances be directed to report an Ordinance fixing, so far as it can be done, the compensation to be paid them for such work as they may perform.

Upon each and all of these resolutions, that is to say, the one adopting the minority report, the one designating S. M. Booth and Schoeffler & Wendt, City Printers, and the one giving all other Printing to the Free Democrat, Ald. FISCHBACK voted in the affirmative. Of course, it was compctent for him, us one of the majority, to move a consideration of those votes, at the same, or subequent meeting. This he did, on Saturday last, by offering the following resolutions:

Recolved, That the vote adopting the Minority report of the select committee on Printing, be reconsidered.

Me solved, That the vote designating S. M. Booth and Scheeffler & Wendt as City Printers, be reconsidered.

Resolved, That the vote giving all other City rinting, except ordinances, notices and by-laws, S. M. Booth, be reconsidered.

The Chair rightly entertained these resolutions and the Council adopted the first and second and laid the third on the table. So much for the Democrat's first point. The others need but a very brief answer. The Free Democrat contends, in the first place

that the City Printer is a City Officer, as much as Compttoller, subject to the same rules of election and removal. A glance at the Charter will show this position to be untenable. That instrument creates the office of Comptroller, points out the node of election and prescribes the duties. Not so with City Printer. The Charter makes no such office, but simply empowers the Council to designate two City papers, to publish the ordinances notices &c. This the Board can do by resolution and they can, of course, reconsider any resolution which they have a right to pass. But, pursues the Free Democrat, if the Printers "are mere contractors to do certain work for the City," then the City "has entered into a solemn contract with Mr. Booth and Messrs. Schoeffler & Wendti to do the Printing and Mr. Booth "has commenced and partly performed his contract." There is no contract in the case. None has been entered into by the City, nor will any be violated if the Council, conforming to the Charter, direct the printing to be awarded to the lowest bidders. It is true that the Free Democrat has accomplished the herculean feat of publishing one brief Ordinance, and is clearly entitled to be paid for the service. But that gives it no vested right in the rest of the printing, nor affects the right of the Council to reconsider and, if they see fit, amend

their first action. We have thus answered the Democrat's three points. That paper of yesterday pursues the subject in the same strain as on Monday, but without adding any new fact, or argument. It throws itself, however, upon its dignity, nectifies the Council that it has got the printing and means to keep it and holds up the following threat, in the wise conceit that it will frighten the Members from

heir propriety: The the Common Council may regard itself as being omnipotent as the British Parliament, and may imagine that it can release itself from its "contracts," yet we don't think that in a court of Justice its power will be carried quite to that

We don't think the Board will be deterred from doing their duty by any such idle and uncalledfor bravado.

MILWAUKEE MANUFACTURES.-We noticed, yesterday morning, the shipment of a Mill stone from the manufactory of Messie. Decker & Seville, of our City, destined for Laporte, Indiana. The stone in question is for the Mill owned by Messra. tlemen, when putting up their Mill, purchased the tones in Chicago. As they proved upon trial, to be inferior, Mr. Palmer went down to Detroit, to see about obtaining others. Finding nothing there to suit him and hearing accidentally of the superior quality of Mill stones manufactured by Decker & Seville, Mr. PALMER came to this city, satisfied nimself by personal inspection that the stones deserved the good name they bore, and purchased and will favor Decker & Seville with further orders,

Nothing is done, and but little else talked o now a days, save the question of the next Presidency. The Presidential stock, like other stock in the monetary affairs of the nation, vacillates, as n the moudary affairs of the nation, vaciliates, as ime (pregnant with events,) speeds along. Of the Democratic aspirants Douglass, (better known here as the Little Giant, or Young America,) and Gen. Cass are the most prominent. The deter-minantion as to which of these shall receive the nomination at Baltmore, is a matter of great importance to the Democratic purty. It will settle the question between "old foggism" and the "Young Democracy"—Gen. Cass representing the former and Judge Douglass the latter. The signs of the times indicate that there is trouble ahead, despite over 16 for the start of t despite every effort that may be made to harmonise the jarring elements of discord now so obvious in the councils of the Democracy.

Does the Maine Law Prescribe Ciden ? -This question has been frequently propounded of late, with a degree of anxiety which is probably proportionate to the love of eider in the inquires The question is answered by Mr. Dow, of Port-land, who is well known to be the author of the law, as follows :--

Portland, Feb. 3.

Mr. II——: Dear Ser:—In answer to your inquiries, I have to say, that the Maine Law does not looked the manufacture of eider. It is not intoxicating when manufactured. It may be freely sold when new, and afterward kept for vinegar. The manufacture goes on in this State as ever; but after it becomes intoxicating, it cannot be sold except by city or town agents. Perhaps you may publish this information to the world, to put the "cider question," as you call it, to rest.

THE MURDER IN VIRGINIA. - Our Telegraph des patches, Monday morning, spoke of an awful murlerin Doddrige County, Virginia, but gave no par ticulars. The following paragraph, which we find in our Cleveeland exchanges, refers to the same tragedy:

CF The Legislature has, by an almost unani-mous vote, passed a bill releaving Levi Blossom and others from the Treasurer's bond, Mr. Janssen and others from the Treasurer's bond, Mr. Janssen having procured other sureties which are deemed ample for the security of the State against loss.—Attempts have been made by some to impugn the motives of Mr. Blossom in this monter, but we believe not by Mr. Janssen or any of his friends who know any thing of the circumstances of the cause.—Madison Democrat 25th.

We have been waiting for several days to see the Wisconsin open its batteries upon the Legislature for this "flagrant outrage"; but it is as mute as a fish. M'LLE JACQUES' CONCERT.—M'lle Rosa Jacques, assisted by Henry Squires and Herr Brandeis, gives a concert this (Friday) evening, at the Firemen's Hall, the programe of which may be found in our advertising columns.

M'lle Jacques gave her first concert on Wednesday evening, at which sho had a large, refined, and appreciative audience, upon whom she left a most favorable impression. She is quite young, which circumstance, combined with her graceful, petite figure, her auchly comic expression, and her slight, but piquant pator, gives her a large control over the kind feelings of her beaters, and serves as a pleasant introduction to powerful voice, a brilliant execution, a refined and cultivated taste, and a musical genius, which enters largely into everything which she attempts. She excels in facile comic power, and in the air of frank naivote with which she presents all passages susceptible of an exercise of that talent, of which her little song, "We met by chance," affords an apt illustral too.

Henry Scuires is a young artist of a high order

"Conformateur,"
from which the above out was taken. By it we can take the exact shape, and unoringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all these who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the Oasp System (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of \$4.25; surpassing any \$5 Hat sold in this city. "Ds. Hoofmays Gennas Birtinas, manufactured by Dr
Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much givcacy in cases of female weakness. As such is the case, we
would advise all mothers to obtain a bottle, and thus rare
themselves much sickness. Persons of debilitated constitution will find those Birters advantageous to heakh, as we
know from experience the saturary effect they have upon
weak systems."
The Daily Sun says:—"It is one of the best medicines of
the ngs for Jaundice and Liver Complaint." The Delly Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gractic says:—"Dr. Hoodana's German Bitters we know to be an seellementice, tuffilling in every respect what is claimed for it by the adsertise."

The Evening Builetin says:—"The colorated German Bitters are said to be an invaluable remedy for Jaundice, Despessis, and Nervous Complaints."

The Dally News, July 25, says:—"A Medicino"—We speakthrowingly of Dr. Hodand's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the billary, digestive and nervous systems, it has not, we think, an equal. It is a togetable proparation, and made without alcohol, and to all invalids we should recommend it as worthy of their condience."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Deblitty, and Dyspepsis, it has been found invaluable, effecting cures, and thoroughly cradicating disease, when allother medicines have failed."

That this medicine will cure Liver Complaint and Descriptions.

adicaing disease, when all other medicines have failed."
